S I R:

Applicants herewith submit twelve sheets (Figs. 1a-17) of formal drawings for the above application. Although the Notice of Allowability did not indicate a requirement to submit revised formal drawings, the line quality of the attached formal drawings is superior to the line quality of the drawings as originally filed, and therefore the attached drawings should be used as the formal drawings, rather than the drawings as originally filed.

Additionally, Applicant received a Notice dated April 23, 2004 stating that Figure 12b was listed in the Description of the Drawings in the specification, but was not contained in the drawings. According to Applicant's records, Figure 12b was among the drawings as originally filed. Figure 12b, however, did not immediately follow Figure 12a, and in the set of drawings in Applicant's file, Figure 12b is on the

next-to-last sheet (i.e., the sheet immediately preceeding the sheet on which Figure 17 is shown). The enclosed set of formal drawings includes Figure 12b.
